Friends and Patrons:

In my last year's list, I said I was out for business, that is what I talk about, and I will say here, that I am still on the job, and that I want to thank the friends who sent me orders the past season. I had a wonderful increase, which goes to show that my selected varieties give the planter satisfaction.

I have grown and handled seeds etc. ever since I was a kid, and let me say that is nearly fifty years, and I know what quality means in seeds to the planter. Therefore it is my aim to grow, and to supply only the very best stock of selected varieties, both for crop yield and best quality for the consumer.

Please look through this list, I feel sure there are varieties you will want. Send me an order, no matter if only for a single packet, you will find both Quantity and Quality in every packet of Riverside Farm Seeds.

I thank you for your kind attention, and any order you may send me; and with best wishes for the year, I am

Very Respectfully,

C. H. Brewer

RIVERSIDE FARM SEEDS GIVE SATISFACTION

Had I the space, I could print many reports from customers who have used Riverside Farm Seeds and bulbs for years with great satisfaction. I cannot of course guarantee crops, as that is a matter beyond human control, but should there be cause of complaint which is the fault of the seeds and not of the planter, I will refund the price paid, but will assume no responsibility further than this. TOMATO SEEDS

Riverside Farm Tomato Seeds are unsurpassed. Seed is saved from selected fruits, no lopsided, miss-shapen, and cull stuff goes into the seed tub, in fact it would be a hard matter to pick those kind of fruits when you plant Riverside Farm Tomato Seed, of the varieties listed on this page.

HERE ARE FOUR GOOD VARIETIES

and if you want the most solid, and best quality tomato be sure to plant Brewer's Favorite Tomato this season. See illustration from a photograph.

BREWER'S FAVORITE TOMATO. I will quote from a letter received last October. "And may we congratulate you on the delicious tomato, Brewer's Favorite. We never had any tomatoes of better quality and flavor."

There is no other tomato that I know of that can excel Brewer's Favorite for solidity, fine color, and extra good quality. It is an early variety, the vines are vigorous and very productive of good sized fruits. It is a good keeper the flesh never becoming mealy, as do some varieties when ripe. For the home garden it will give great satisfaction, and for marketing at a road side stand it is unequalled, as has been proved by customers returning for them just as long as they were to be had. Brewer's Favorite Tomato is fast taking its place as the most solid, finest quality tomato. Pkt. 10c; Large Pkt. 25c; Ounce 75c.

BREAK O'DAY. An early variety ripening at the same time as Brewer's Favorite. Vines of strong growth, and carry an abundance of fruits, round, smooth, and deep orange in color. Flesh deep red, solid and remarkably few seeds. Not as heavy or high quality tomato as Brewer's Favorite, but good for table use, canning or market. Seed from selected fruits. Pkt. 10c; Oz. 50c.

MARGLOBE. Fruits globe shaped of bright red color, and are of handsome appearance when picked for market. Medium early in ripening, vines of vigorous growth and productive. Pkt. 10c; Oz. 50c.

MATCHLESS, Vines vigorous in growth, producing a large crop of fine fruits, smooth as an apple, fine quality, rich red in color, and unexcelled as a main crop variety. Fine for canning or market. Pkt. 10c; Oz. 40c.

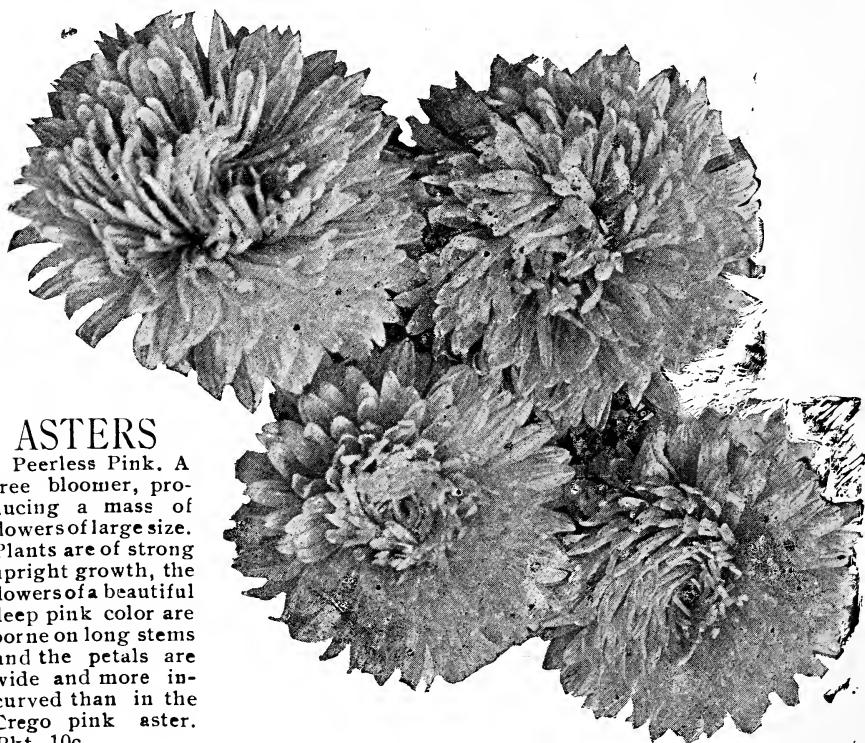

TEN CENTS per pound. Local orders, or when seeds are ordered by express at purchasers expense, 10c. per pound may be deducted from price quoted. The prices in this list are for goods postpaid to your address.

RIVERSIDE FARM GLADIOLUS

The Grandest of all the Summer
Garden Flowers

**A Beautiful New Gladiolus, now offered
for the first time**

Westfield

This new Gladiolus now offered for the first is a Riverside Farm production. It is one of several selected out of 800 seedlings a few years ago, and of which a limited stock has been grown.

To describe the wonderful coloring and the great beauty of this new Gladiolus is beyond my ability. Perhaps the nearest I can come to it is to say it is white, spotted and veined with light and darker shades of carmine, the throat of the flower showing two shades of rich carmine color, blending out to a delicate pink.

Bulbs planted May 16, started blooming on July 20, and produced large spikes with from 12 to 14 blooms, the spikes average 42 inches in height, and are of strong, healthy growth.

Everybody seeing this gladiolus in bloom, at Riverside Farm the past season have commented upon its great beauty and wonderful appearance in the field.

No certificates or gold medals have been awarded this new gladiolus, it is starting out a stranger, and I feel sure will meet with a great reception by every lover of gladiolus; and I am glad to be able to offer a few of the bulbs to my customers at a very reasonable price. Large bulbs, \$1.00, each. Six for \$5.00.

Not more than six bulbs sold to any one customer.

These seeds may be sown any time up to the middle of August, and will make fine plants for next seasons flowering, and last for years if properly cared for. One packet each, Aquilegia, Cardinal Flower, Dianthus, Gaillardia, Hollyhocks and Rudbeckia, Purpurea.

All are easily grown and will supply flowers throughout the season. All 6 packets for 25c. Order both these collections. I am able to make up these two remarkable collections owing to having a good supply of these varieties.

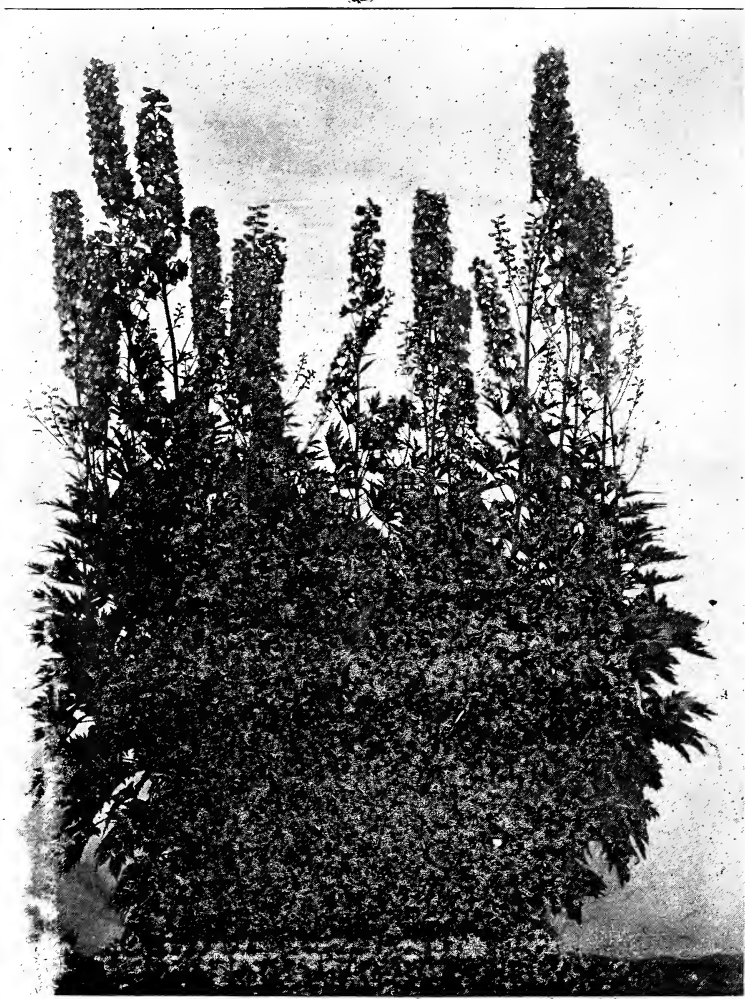

For the childrens garden or as a little present to some of your friends a Grandmother's Garden Collection will be highly appreciated.
